(*Ligustrum*)

**Founded in 1867**, the City of Titusville reached a major milestone in 2017—the City's 150th year anniversary. In celebration of the City's founding, the City will host a tree giveaway program to provide up to 150 trees to its citizens at no cost, on a first come-first served basis.

The National Arbor Day Foundation has recognized Titusville as a Tree City USA for more than 15 years and the Anniversary Tree Program will ensure a vibrant and beautiful landscape for years to come.

To learn more about the benefits that trees provide, such as enhanced air quality, energy savings, storm-water improvements, and reduced atmospheric carbon dioxide (CO<sub>2</sub>) please visit [design.itreetools.org](http://design.itreetools.org).

The City seeks to encourage biodiversity throughout its urban forest and stresses the importance of planting the right tree in the right place (i.e. small understory trees planted near utility lines). Available trees are Florida-friendly which means these species are adapted to Florida's climate; are not invasive; and require minimal water, fertilizer, and chemicals.

For specific information on each of the available tree species please visit the Florida-friendly Plant Database available at [www.floridayards.org](http://www.floridayards.org).

Apply online at [www.titusville.com/TitusvilleTrees150](http://www.titusville.com/TitusvilleTrees150).
