**Subject: FW: DEO Launches Rebuild Florida, providing \$616 Million to Help Floridians Repair and Rebuild Homes Damaged by Hurricane Irma**

Date: September 26, 2018 at 10:05 AM

*From: The Florida Department of Economic Opportunity*

Greetings,

Many of you are aware of the Florida Department of Economic Opportunity's (DEO) new program, **Rebuild Florida**, which launched today. For those of you who are not, **Rebuild Florida** is a \$1.4 billion disaster recovery program for Hurricane Irma that will allow DEO and our partners the opportunity to provide critical assistance in many impacted communities across the state.

**Rebuild Florida** will repair and rebuild homes for low-income families, construct additional affordable housing units, assist businesses in disaster recovery and update local infrastructure to better withstand future storms. DEO and our many partners have been working diligently toward this goal for the past 12 months, since Hurricane Irma hit Florida last September. We are excited to announce the launch today, along with the new website [RebuildFlorida.gov](http://RebuildFlorida.gov).

Please [click here](#) to see the press release from DEO.

If you are interested in applying for the **Rebuild Florida** program please call our Rebuild Florida Center number 844-833-1010, visit one of the Rebuild Florida Centers opening in your area or visit our website [RebuildFlorida.gov](http://RebuildFlorida.gov).

Thank you so much for your partnership! We look forward to working with you to **Rebuild Florida!**

Sincerely, Emilie Oglesby  
External Affairs Director, Rebuild Florida Office of Disaster Recovery
