

Titusville, Florida's Space View Park. The Mercury 7 monument - dedicated to the men and women who put the first Americans in space in the early 1960's. Behind it is the new high-rise bridge that crosses the Intercoastal waterway and the Indian River Lagoon, America's most diverse estuary. Under the bridge is a great fishing pier. Beyond it the Kennedy Space Center, the Merritt Island National Wildlife Refuge and Canaveral National Seashore with 24 miles of Atlantic beach.

Next door is the Veteran's Memorial Park. To the south-west is Downtown Titusville, home to businesses, museums, restaurants, weekly music concerts and bi-monthly street parties. Across the highway to the north are major public recreation areas in Sand Point & Marina Parks and the substantial Titusville Marina.

That's just the Downtown. The community has more than 60 restaurants and more than 40 parks & sanctuaries. Large home supply & department stores and hundreds of [small businesses](#) that cater to local needs. We are part of a "quadramodal" transportation hub - Interstate, rail, air, sea and space! Large and small industries take advantage of our skilled workforce (with skilled workers becoming available for new businesses as NASA slows down).

In this 4,000+ page directory you'll find descriptions of more than 60 nearby [places to go and things to do](#) and an up to date [calendar of events](#). We are a relatively quiet town with active schools, churches and civic organizations. It's a great place to raise children and for retired folks. And, we are within an hour of many of Florida's greatest attractions. Local folks and visitors are invited to explore this directory and participate in the fulfilling life style that North Brevard offers.
